

Wu Wancheng

Email: e0383692@u.nus.edu

EDUCATION

National University of Singapore

Jan. 2019 - Jan. 2020

Master in Electrical Engineering

GPA: 3.75/4.0

Courses: Convex Optimization, Pattern Recognition, Neural Networks

University of Electronic Science and Technology of China

Sept. 2014 - Jun. 2018

Bachelor in Smart Grid Information Engineering

GPA: 3.81/4.0

Courses: Advanced Programming Language and Program Design, Database Fundamentals

RESEARCH & PROJECT

Neural Network Modelling of 6T SRAM

Jan. 2019 – Dec.2019

- Design the basic 6T SRAM cell by LTSPICE.
- Data extraction to generate trainset and testset.
- Neural network modelling and training
- Propose some methods to reduce the data needed based on data analysis principles

Neural Network Based Images Classification

Mar. 2019

- Apply MLP neural networks to classify binary classes images.
- Use regularization algorithm to solve over-fitting problems.

Spam Email Classification

Mar. 2019

- Use log-transform or binarization data processing method for original spam email dataset.
- Apply four classification algorithms Beta-binomial Naive Bayes, Gaussian Naive Bayes, Logistic regression,
- K-Nearest Neighbors respectively to classify spam emails.
- Calculate the accuracy for different methods and adjust corresponding parameters for optimization.

AWARDS / HONORS

- UESTC Outstanding Students Third-class Scholarship 2015
- UESTC Outstanding Students First-class Scholarship 2016
- UESTC Outstanding Students Second-class Scholarship 2017
